Davide Groppi / 2017

It is our Infinito model turned around, with the light flowing downwards.
The 9 mm wide stainless steel strip can run perfectly up to 36 metres in length
(standard versions at 6 / 12 / 18 metres in length).
The ideal solution for direct illumination of spaces with very high ceilings.
Its name pays homage to the famous comic book superhero, who can run seven
times the speed of light.
