

# SIMBIOSI

Davide Groppi / 2015

A de-structured chandelier that can be re-assembled as you like.  
A conjuring trick that gives you the possibility of connecting the diodes in series  
using very weak electric currents with wires that are practically invisible.  
The very thin wire that connects the light sources and brings them alive,  
one in relation to the other, is the principal component of this project.

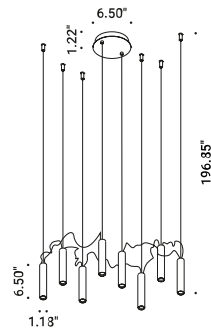

# SIMBIOSI
