

CATHODE

Omar Carraglia / 2015

A scientific looking bulb made from mouth blown glass.
The shape brings to mind a light bulb that was never born.
Think steampunk: situations in which instruments were inspired by
the rudiments of electricity. The classic light bulb that has no future
becomes a wonderful device made of luminous diodes.
What would the past have looked like if the future had arrived first?
Luminaire available also in ENDLESS version.
