

A ready-made project to design the space with a sense of irony and weightlessness.
The tracks of an electric train can be used to draw a heart, but also to conduct electricity.
Rail is the boundary between usefulness and show, between art and design.

Un ready-made per firmare lo spazio con ironia e leggerezza.
I binari di un trenino elettrico sono lo strumento per disegnare un cuore,
ma anche per condurre la corrente elettrica.
Rail è sul confine tra utilità e rappresentazione, design e arte.
