

Wall luminaire with diffuse light for indoor use.

A luminous short film. Telling a story in light, a series of old 1.37" slides are lit from behind, pulsating and shown at random.

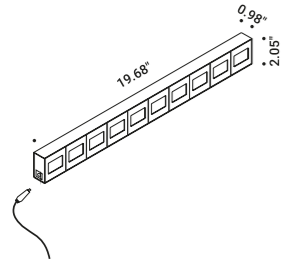

The body is in textured matt black painted steel. The visible part of the frame is in white polycarbonate. The photographs can be assembled and replaced as you like. Create your own personal message. Not included, the images may be slide films or frames printed on translucent material.

The light is intermittent. FILM has no switch. The power supply is plug-in and not included, but is available as an accessory. The luminaire can also be powered by a remote driver, available as an accessory.
