

MAGIA

Michele Groppi / 2023

Light and transparency are the true stars of this project.
We have always liked to think heretically, evoking mystery, magic and seduction.

Magia is a modular suspension lighting system for indirect light
that can be adapted to suit different heights of the rooms.

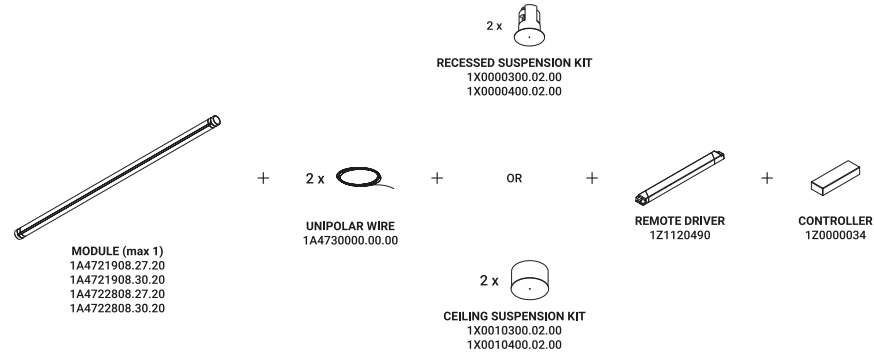

In this case, the lens is not used to focus,

but to modify the vision and perception of the object.

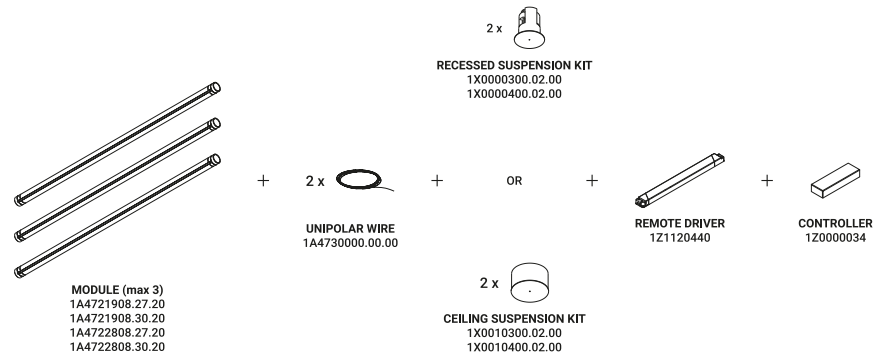

The effect of the convex lens conceals the part of the light beam
and produces the lightest effect of suspension and inconsistency.
