

MAGIA

Michele Groppi / 2023

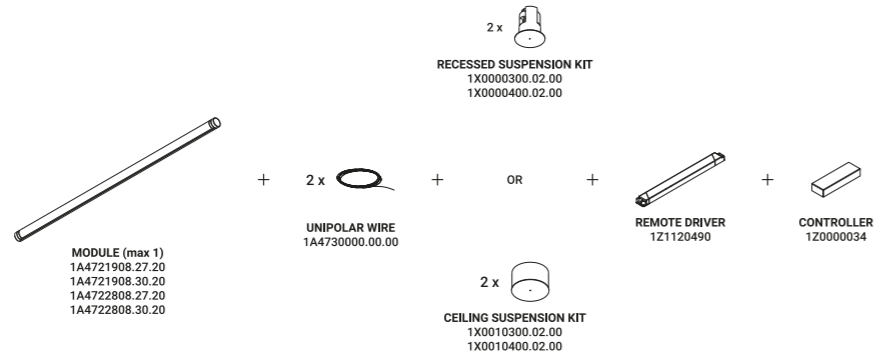

Light and transparency are the true stars of this project. We have always liked to think heretically, evoking mystery, magic and seduction. Magia is the new modular suspension lighting system that can be adapted to suit the different heights of the rooms and can generate direct and indirect light with the 360° adjustable module.

In this case, the lens is not used to focus, but to modify the vision and perception of the object.

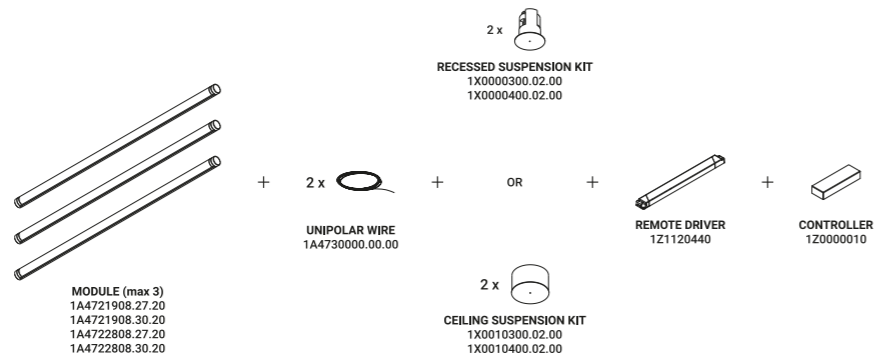

The effect of the convex lens conceals the part of the light beam and produces the lightest effect of suspension and inconsistency.
