# RACE OF LIGHTS

Wall luminaire with direct light for indoor use.

When light becomes fun.
RACE OF LIGHTS is an electrified toy track that carries current to power tiny light-cars.
The track can be set up as you desire, becoming the base for designing your own lighting system.
The light-cars are fixed with magnets, allowing you to freely create ever-changing compositions.
A simple and intuitive system, where light can be moved and reinvented whenever you wish.
A project that turns child's play into an inventive light experience.

The connection base and closing element are in textured matt black polyamide.
The track modules are in textured matt black polythene and can be arranged as you like.
The light-cars are in textured matt black polyamide and are magnetically fixed to the track.

The light-cars source is LED with integrated module and is available in white, red, green or blue.
RACE OF LIGHTS has no switch.
The power supply is plug-in and not included, but is available as an accessory.
The luminaire can also be powered by a remote driver, available as an accessory.
