

## INFINITO

Davide Groppi / 2016

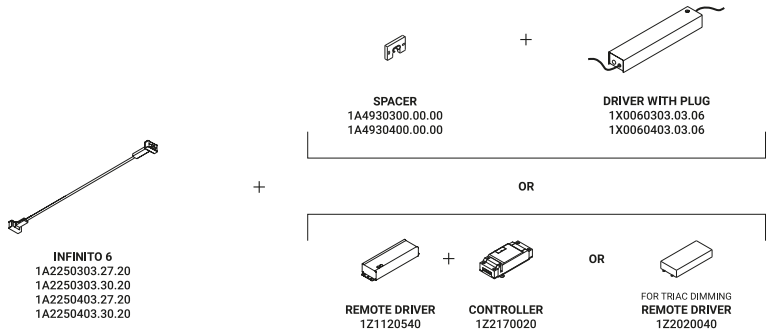

A spatial concept, it is continuous light.

An ultra-thin strip of special stainless steel just 18 mm wide “cuts” the space to produce indirect light. Infinito can be adapted to various situations, stretched from wall to wall or ceiling to floor. It comes in strips up to 36 metres in length (standard versions at 6 / 12 metres in length). Infinito breaks down the luminaire, turning it into something else, leaving only a trace, a line and then not even that, just light.

This project pays homage to the art of Lucio Fontana and his spatial concepts. The graphic force of this system is surprising. It can be integrated into space, but at the same time it becomes part of that space. Infinito: essence and absence.
