

Wall lighting system with indirect light for indoor use.

Infito is a spatial concept. An ultra-thin tape cuts through the space producing an indirect light. INFINITO breaks down the luminaire, turning it into something else, leaving only a trace, a line and then not even that, just light.

The tape is in AISI 301 stainless steel, is 0,71" wide and can be extended up to 1417.32" in length (standard measurements 236.22" / 472.44" / 708.66").

The adhesive covering tape is in matt black PVC.

The tensioners are in matt black anodised aluminium.

The TW version is available in 196.85" / 393.70" lengths.

The light source is an 0.31" wide LED strip.

The driver is not included but is available as an accessory.

Finish

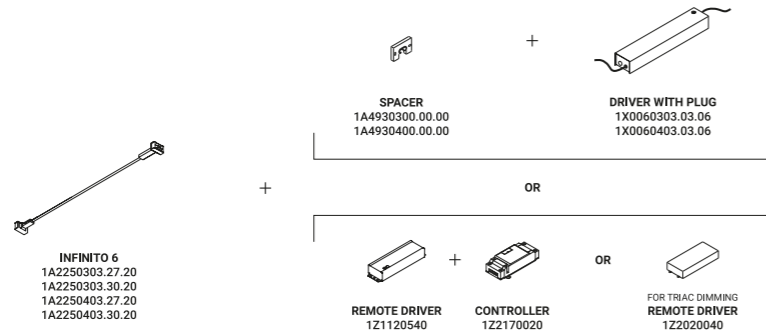

.03 Matt White

.04 Matt Black

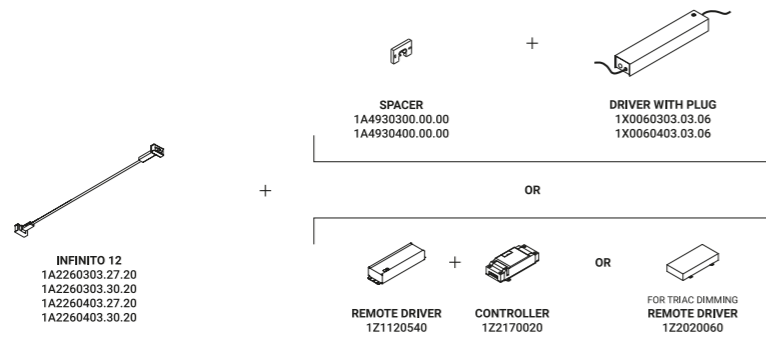

Custom finish available on request (wall connection and installation kits only).
