ENDLESS /

The beating heart of **Sistemi**.

Endless is an adhesive strip, a conductive strip that can be applied to any kind of surface.

Walls, ceilings, or even stairs, furniture, windows and glass, with Endless they become potential light spaces.

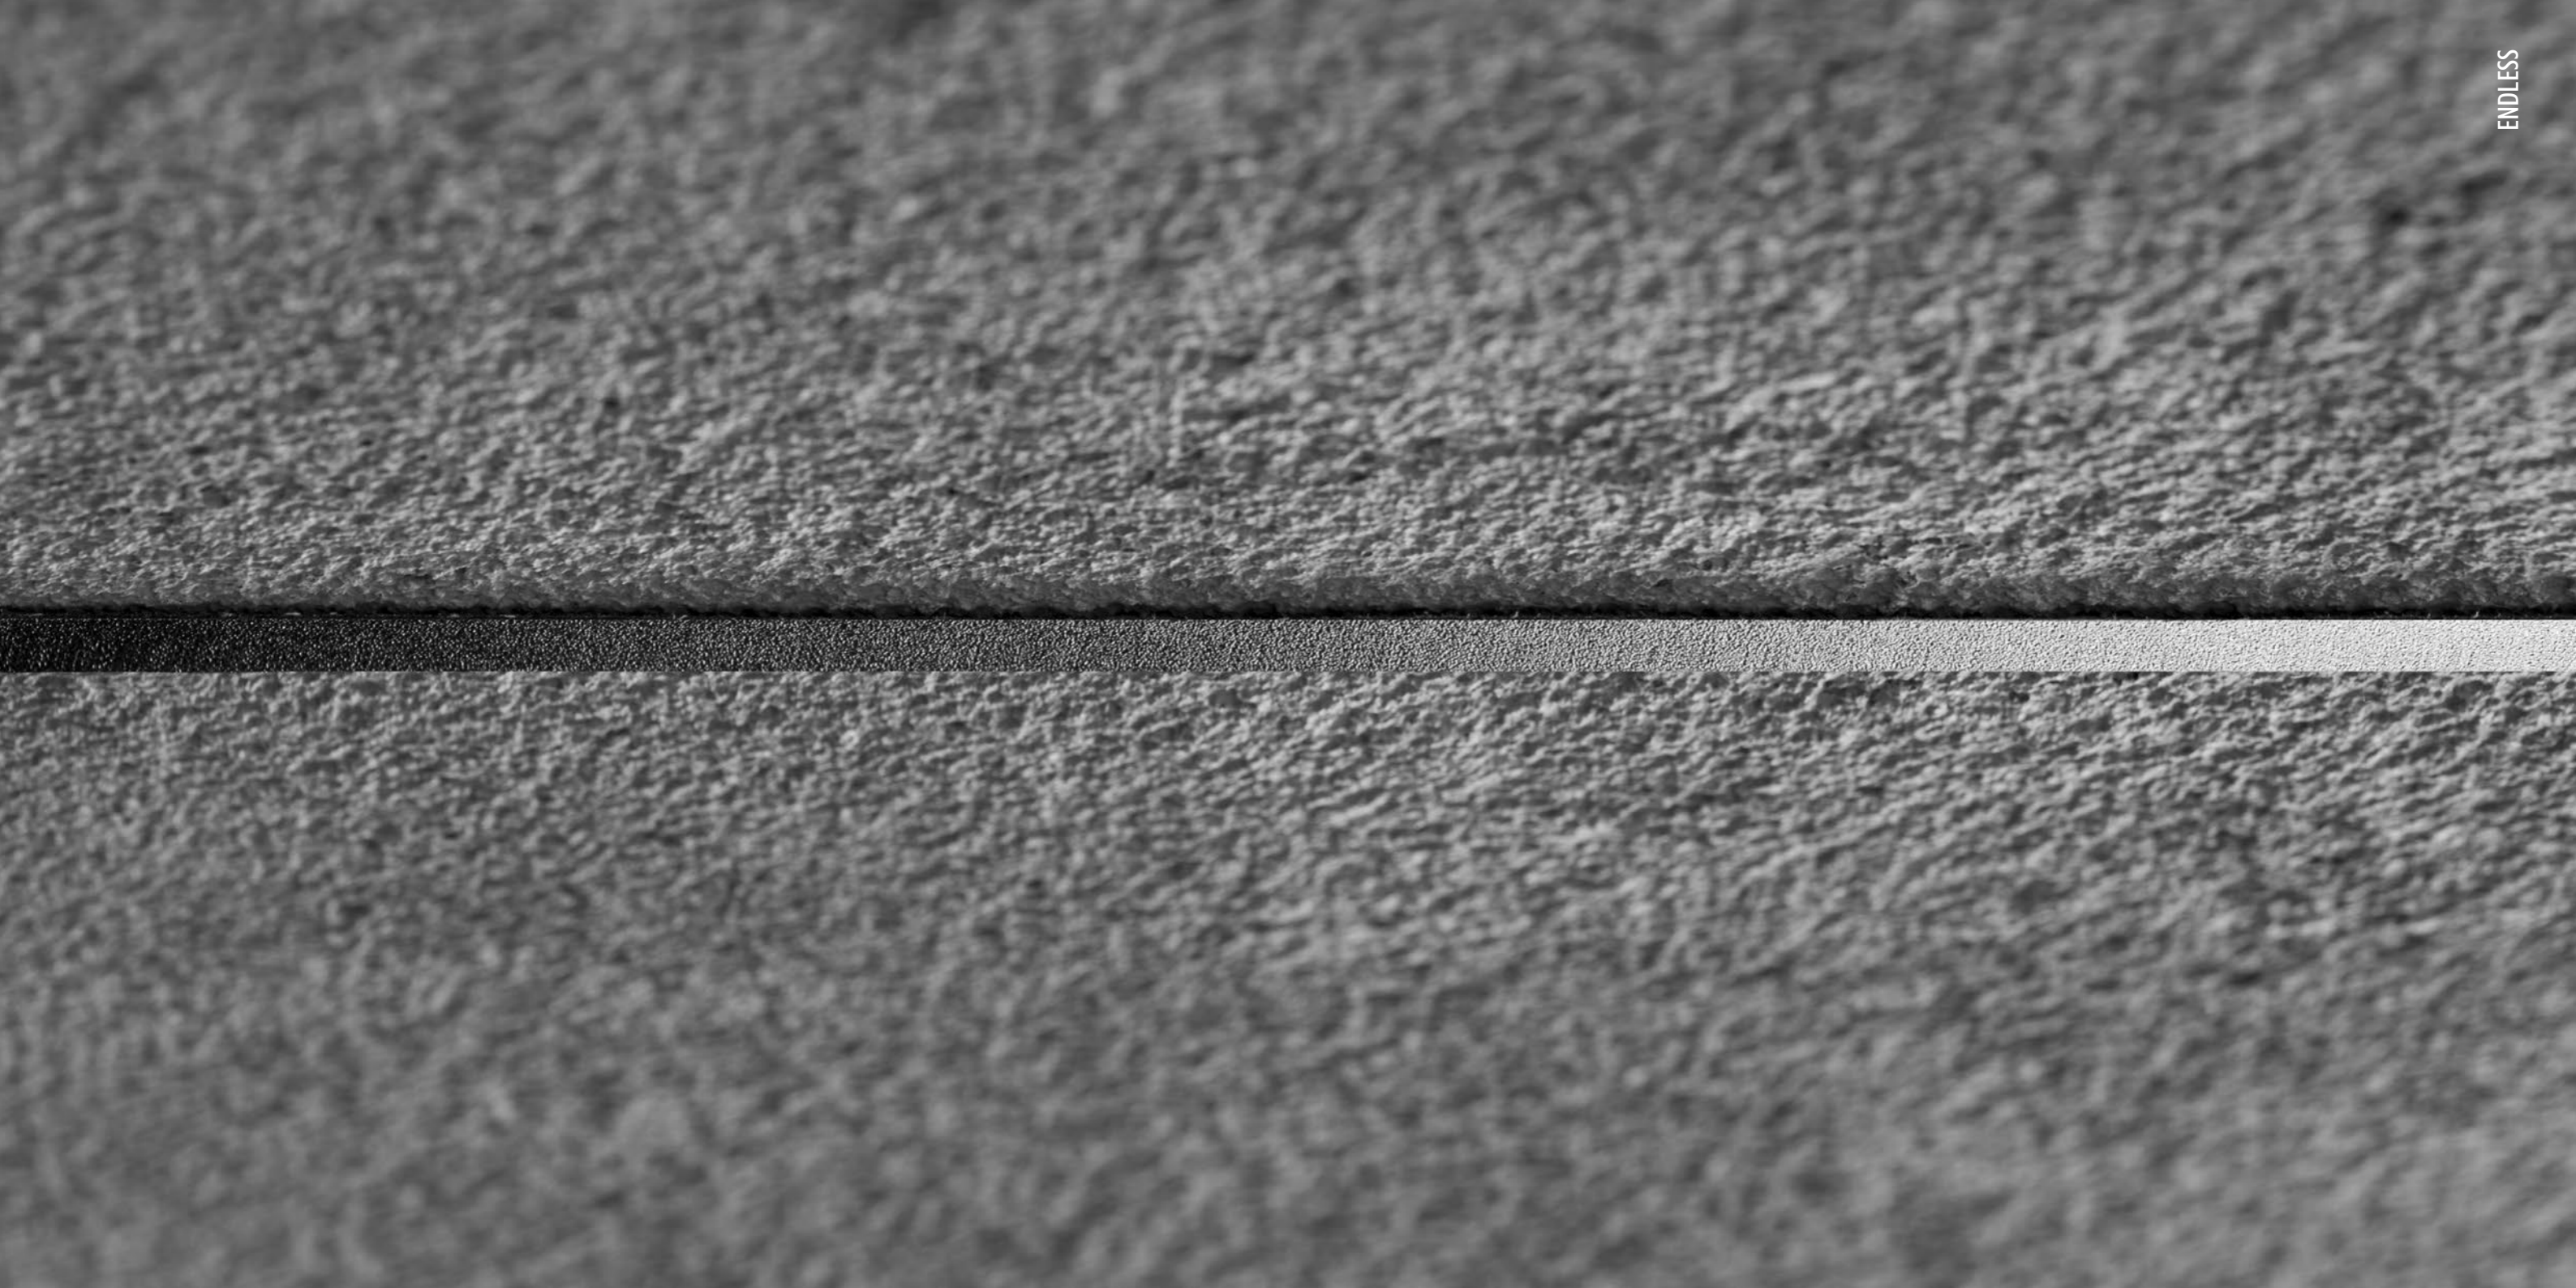

The Endless system was designed and patented to bring "potential differences" wherever you want them, creating graphic digital designs.

This way current can run anywhere, allowing you to connect more than one luminaire at the same time.

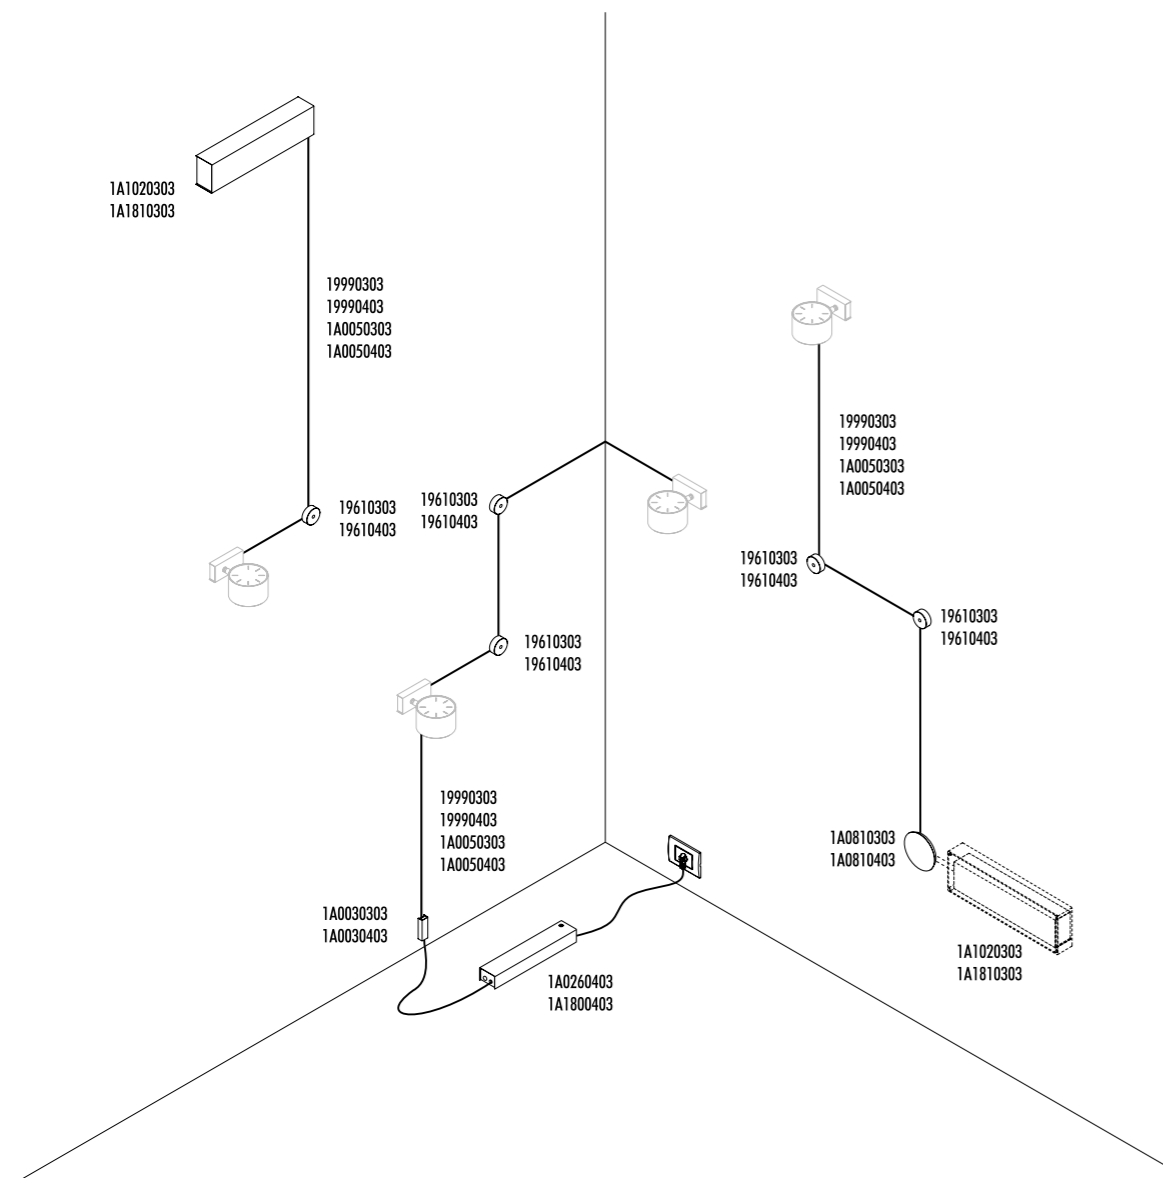

Every space becomes an electronic circuit where light can be positioned with the greatest freedom.

With Endless, one of the greatest dreams of light designers becomes reality: light can be used to draw, create patterns, and engrave the darkness.

Finally freed, light becomes the artist's brush.

The sizes are expressed in millimeters / inches.
