## PoPuP Audio Table Lamp by Davide Groppi

New from lighting innovator Davide Groppi, the PoPuP is a stunning wireless LED table lamp with built-in Bluetooth speaker. Very simple, very elegant and very Brogue, this rechargeable magnet design, in metal and methacrylate, is entirely matt white, but as the light from the 2W LED (3000 237 lumens) bulb is diffused downwards the shade contrasts beautifully. As for audio, there's a 5 20000 Hz speaker built-in, and while you'll not deafen the neighbours it's ideal for a dinner date the 2700 mAh battery that has enough power to maintain the mood for up to 30hrs.

£560, [Davidegroppi.com \(http://www.davidegroppi.com/\)](http://www.davidegroppi.com/)
